## Western MCA Spirit - Collaborative thinking and camaraderie for mechanical contractors in Western Canada [#westernmcaspirit](#)

The early impact of COVID-19 is being felt with the total impact yet to be determined. In an effort to help members navigate these uncharted waters, the Western MCA's are collaborating to share, facilitate and organize tools and resources supporting mechanical contractors in BC, Alberta, Saskatchewan and Manitoba.

We are working on the development and delivery of information sessions customized for and important to mechanical contractors; as dates are confirmed, notices will be sent out to members.
